

Gebze Technical University

Fermada LED Lighting | 2017

Istanbul, TURKEY

Gebze Technical University, which is a candidate to become the most important science base of our country with its infrastructure, equipment, and academic staff, is enlightened with Fermada LED Lighting products!

In the project, that includes GTU Rectorate Building, GAIA Panel luminaire, TOPAZ Downlight luminaire, and SUR luminaires have been used.

You are invited to our website to find more details about our projects and to see what we can do together!

Please keep in mind that Fermada products have **CE** and **ENEC** certification.

We are looking forward to have collaboration together.

Thank you in advance,
Fermada LED Lighting Team
